## PROFESSIONAL SUMMARY

Junior Full-Stack Developer (Python & React) with hands-on experience building production-style web applications from scratch. Skilled in developing backend systems using Django, creating responsive and accessible user interfaces with React, and integrating services through secure REST APIs. Experienced in implementing authentication systems, dashboards, and complete CRUD workflows. Actively seeking an entry-level role to contribute, learn, and grow as a developer.

## EXPERIENCE

### Website Design & Development Intern — iStudio (Jan 2026 – Present)

- Designed and developed responsive, user-friendly interfaces using React, HTML5, and CSS3
- Built reusable UI components and layouts following real-world frontend patterns
- Created dashboards, landing pages, and form-based user flows
- Improved usability, accessibility, and cross-device compatibility

### Full-Stack Python Intern — ArcraftInfotech (June 2025 – Present)

- Built full-stack web applications using Django and React
- Developed RESTful APIs for login systems, dashboards, and CRUD workflows
- Implemented authentication, authorization, and role-based access control
- Designed and managed relational databases using MySQL and PostgreSQL
- Debugged issues, optimized performance, and added new features

## PROJECTS

Student Management System (Django) — Built a complete CRUD-based system with authentication, role-based dashboards, reporting modules, and database integration.

Room Booking System (Django) — Implemented booking workflows, real-time availability checks, admin controls, and user authentication.

Food Menu UI (React) — Designed a responsive UI using reusable components and modern layouts.

## SKILLS

Python (OOP), Django, Django REST Framework, REST APIs, React, JavaScript (ES6+), HTML5, CSS3, MySQL, PostgreSQL, Git, GitHub, Debugging, Unit Testing (basic)

## EDUCATION

B.Tech in Computer Science Engineering — APJ Abdul Kalam University, Kerala (2021–2025)
